

WEBINAR

BUILDING PARIS 2024:

Delivering the Olympic Village and Hockey Stadium on Time and Sustainably

BEM Approved
CPD: 2 Hours

12 May 2026 10.00 A.M. - 12.00 NOON

Synopsis

The delivery of the infrastructure for the Paris 2024 Olympic Games involved numerous challenges (environmental, technical, social, scheduling, etc.).

Through two case studies—the Athletes' Village and the field hockey stadium—this webinar will present

- the projects and their objectives;
- the solutions implemented to achieve them (organization, tools, etc.);
- the successes and limitations of these approaches;
- an outlook on the future of project management in the construction industry.

Speaker

French Civil Engineer and Architect, Jean Dessertine has over 20 years of experience in Project Management and PMO roles, primarily in France. Specialized in construction, he also brings broad experience across other sectors, including industry. He has worked on projects ranging from \$10 million to \$300 million, including high-rise buildings, stadiums, and office developments. He contributed to two projects for the Paris 2024 Olympic Games: the Olympic Village and the field hockey stadium.
