

26 AUGUST 2026
10 AM – 12 NOON

BRIEF TECHNICAL SESSION ON

FLOODING AT CONSTRUCTION SITES HOW DOES THE C.A.R. POLICY RESPOND TO SUCH EXPOSURE?

OVERVIEW

A very pertinent issue during this period. Heavy rain and flood occurrences all over Asia affecting project sites and construction risks.

The ASEAN region has been hit by such flood occurrences. Similar cases in S.E. Asia too – including Singapore, Malaysia and Indonesia. Middle East is also affected by floods. An interesting presentation delivered by a Regional Risk Consultant based in Singapore.

KEY TAKEAWAYS

- Flood is one of the perils covered under the C.A.R. policy - ALL RISK cover.
- There are a few clauses that may restrict coverage to flood damage incidents.
- Plant and machinery are normally insured under separate insurance coverage.
- Project delays arising out of flood scenarios are NOT covered.

These and many more interesting details will be deliberated by our guest speaker who is also a regular trainer with the Singapore College of Insurance (SCI), Malaysian Insurance Institute (MII), The Insurance Institute of Asia Pacific (IIAP), Thailand Insurance Institute (TII) & the Chartered Insurance Institute – Hong Kong (CII- HK).

GUEST SPEAKER

Ir. Pooba Mahalingam
Regional Risk Consultant

Pooba is a Regional Risk Consultant based in Singapore with three decades of practical experience in risk/insurance. Pooba is a professional engineer and operates under "Talent Asia Training & Consulting" of Singapore. He is specialised in the insurance space with special focus on engineering/property insurance and risk management aspects. Pooba is a regular lecturer with the Singapore College of Insurance (SCI) and the Malaysian Insurance Institute (MII). He is also the Author of a MII publication entitled, "Engineering Insurance." Besides training, Pooba also undertakes property risk surveys and provides consultancy services to various clients in Singapore and in the following regions: Asia, Middle East & Africa.

BACKGROUND ABOUT THE COMPANY

Talent Asia Training and Consulting (TATC) is a Singapore based company providing consulting and training services, mainly for the insurance industry and related stakeholders. We conduct risk surveys covering property and engineering/construction risks (on site & virtual). Our training services for General Insurance, especially in engineering and construction risk subjects have been well received by various participants since the firm was established in 2016. Besides training and risk surveys, we are also involved in damage assessment, expert witness assignments, audit and technical advisory services covering the following regions: Asia, Middle East and Africa (including Mauritius).
