THE ASSOCIATION OF CONSULTING ENGINEERS MALAYSIA

WEBINAR ON

ESG GUIDELINES FOR ECP & INDUSTRY'S BEST PRACTICES

8 DECEMBER 2026 Tuesday | **10.00 AM - 12.00 NOON** | **ZOOM** Online Platform

BEM APPROVED CPD: 2 HOURS

SYNOPSIS

Recognising the growing importance of ESG within the engineering profession, Ir. Sharifah Azlina has chaired the **Board of Engineers Malaysia (BEM) Working Group on ESG for Engineering Consultancy Practices,** leading the development of **ESG Guidelines for Engineering Consultancy Practices (ECPs).** The Guideline No. 009: Guidelines on ESG for Engineering Consultancy Practices in Malaysia, launched by BEM in May 2026, provide a practical framework to help engineering consultancies integrate ESG principles into their governance, operations and project delivery, reinforcing the profession's commitment to sustainable development.

Drawing on her leadership experience in both industry and the profession, Ir. Sharifah Azlina shares practical insights of the ESG guidelines and implementation, sustainability leadership and best practices for engineering consultancies in creating long-term value for clients, communities and the environment.

SPEAKER

Ir. Sharifah Azlina Bt. Raja Kamal Pasmah

B.Sc (Civil), MBA, PEPC, FIEM, IntPE(MY), APEC Eng, MACEM

Ir. Sharifah Azlina brings over 36 years of distinguished experience in the engineering consultancy practice. She began her professional journey specialising in road and rail design and construction, building a strong technical foundation in transportation infrastructure before expanding her expertise across a broad range of engineering, infrastructure and multidisciplinary consultancy services.

Today, she serves as the Chief Executive Officer and Executive Director of the HSS Group of Companies, a leading multidisciplinary engineering consultancy with more than 1,200 professionals and operations spanning nine countries. Under her leadership, HSS Engineers Berhad has established itself as Malaysia's first and only public-listed engineering consultancy practice; reflecting the Group's strong commitment to technical excellence, governance and industry leadership.

Throughout her career, she has been actively involved in a wide spectrum of engineering and infrastructure developments across various sectors and procurement models worldwide, bringing with her extensive experience in project delivery, sustainability and strategic planning.
